

CITYSHRINK Interview Master Classes for Candidates

Our short, practical Interview Master Classes are small-group coaching sessions designed to help your talent, expertise and leadership ability shine through under pressure.

We will

- **Give you an insight into the mind of the interviewer.** Using our experience of coaching executives who make hiring decisions, we will help you understand their selection criteria and predict the questions they will ask to test you.
- **Help you understand what exactly a competency-based interview is,** and why getting it right is crucial to securing your desired new role. You need a convincing narrative not only about your specialist skills but also about who you are as a person. We will help you create it and keep it at your fingertips.
- **Sharpen your interview skills.** You will have plenty of practice to help you make the interview a dialogue rather than an exam, and to respond calmly to the most challenging questions.

Agenda

- The best person for the job: is it what they know or who they are?
- Personalised CV review
- Creating a strong narrative
- Selection criteria and sample questions
- Competencies and competency-based interviews
- From exam to dialogue - how to be an equal partner in your job interview and how to deal with bosses who have not been to one of our Master Classes
- Skills practice
